MAKE AN APPOINTMENT

Or call (876 615-8375) or

From the Chief Medical Officer

Baywest Wellness Hospital & Clinics provides the finest primary and subspecialty medical care to medical tourism, locals and communities across the region. Our goal is simple: We aim to provide you with the highest quality medical care in a comfortable setting.

We respect your time. Your appointment will be scheduled quickly, usually with quick access to see one of our distinct, multidisciplinary physicians. Your wait time is taking into consideration in all aspects. It represents an important indicator to the quality of services offered by our hospital and clinics.

We keep you informed. When it comes to patient care, there's no such thing as "too much information." We'll keep you and your primary care physician well informed throughout your diagnosis and treatment.

We have subspecialties of every kind from excellent [cardiologist](#) to a terrific [hospitalist](#) program that assigns you a physician while you're in our hospital as well as coordinate your care and work with your own doctor with innovative services which ensures that critically ill patients are being cared by the most experienced intensive care physicians.

Whatever your medical needs, our excellent hospital and clinics and our fine physicians and nurses are here for you. We provide safe, quality care, we are committed to keeping our patient safe and healthy.

Sincerely,

Charmaine Thomas, MD
